

Reading Maternity Voices

Reading, Wokingham
& West Berkshire

We are a team of women, service user representatives, midwives, doctors and commissioners. We work together to review and shape maternity services, ensuring co-production with women and their families.

Feedback is collected by a team of local women and we are interested in all of your maternity care experience.

We are keen to hear:

- What was good?
- What was not so good?
- What you would like to see different?

Get involved.

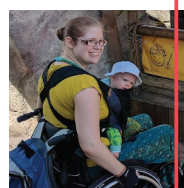

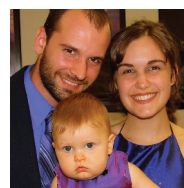

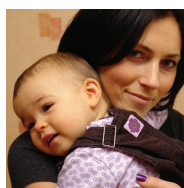

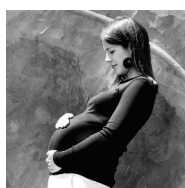

Share your experience.

Your voice matters.
